DETAILED ACTION

Examiner's Note

1. US 2002/0116960 is being cited as relevant prior art. It is also the US equivalent of previously cited JP 2002-248297.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:
3. The prior art does not explicitly teach or make obvious a washing machine having, *inter alia*, a drainage/filtering system with a filter case vertically mounted at a front portion of the outer case of the machine, the filter case containing a drain filter therein and both the drain filter and filter case can pivot toward the outside of the washing machine such that the user can take the filter out of the filter case (while the user is in front of the washing machine). The prior art closest to these features appears to be JP 2005-253990, which teaches a horizontally mounted filter case which is not pivotable, but is covered by a pivotally openable flap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
